

Lakeshore Community Services, Inc.

THE MISSION of LAKESHORE LIFESHARING

The Lifesharing Program's mission is to enrich the lives of individuals with disabilities. The individual receiving support is matched with a Lifesharing Provider.

Lifesharing Providers open their home, sharing love and friendship. Being welcomed into a family provides the individual a feeling of support, safety, and belonging.

HOW DOES LIFESHARING WORK?

Each individual receiving support is matched with a Lifesharing Provider. All personal needs and preferences are considered during the matching process in order to pair the individual with a compatible provider.

Lifesharing Providers receive training and support from the Lakeshore Program Specialist and Director. Providers must comply with program policies, procedures, and regulations which allows for and creates a safe and healthy environment. Lifesharing Provider benefits include a generous stipend and, more importantly, the intrinsic reward of friendship and companionship.
